

Our Mission

To protect the most disadvantaged children and provide holistic education, health and nutrition promoting their basic needs, rights and interests to enable them, their families and communities to be individuals who bring positive change.

What We do

Child Action Lanka Child Development Centres, located all over Sri Lanka, serve as drop-in centres that meet the ever-increasing demand for quality education, nutrition and protection for street-connected children and their families.

Our Focus

EDUCATION FOR ALL:

Our Initiatives provide quality education to children who lack access to qualified teachers, with a focus on Math, English, Sinhala, Tamil and IT Education. Our facilities also provide them with access to other educational resources such as IT Laboratories, stationery, school bags, uniforms and shoes.

HEALTH AND NUTRITION:

At Child Action Lanka, our kitchens play an important role in serving 2000 nutritious meals every weekday across our centres. Our meal menus are carefully designed by Health & Nutrition specialists to ensure that children receive well-balanced meals.

PROTECTION AND SAFETY:

Raising funds allows us to support initiatives that safeguard children's rights, provide shelter, and advocate for their protection. Every child deserves to grow up in a safe and nurturing environment, free from harm and fear.

COMMUNITY SUSTAINABILITY:

Children are the leaders, innovators, and changemakers of tomorrow. Our initiatives provide children with the opportunities to become advocates for their communities.

We also believe that sustainable development comes through empowering communities to provide for themselves and, therefore, our initiatives also provide opportunities for family and community development.

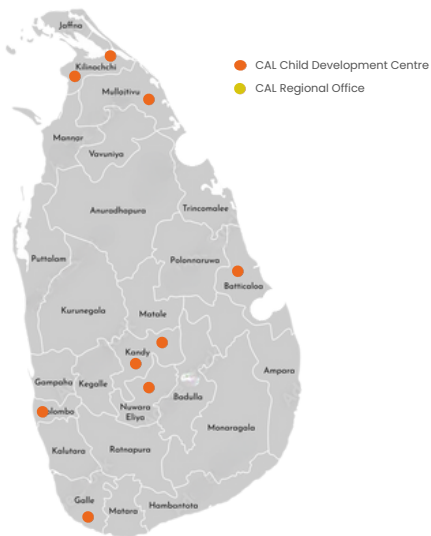

Our Story

- Since our inception in 2006, Child Action Lanka has consistently created solutions for the diverse concerns that have plagued the community in Kandy and beyond.
- We now work through 9 centres located in 8 different districts across the country.
- The organisation has grown to recognise the varying cultures, mindsets and accompanying challenges that different communities contend with.
- We have been able to innovate and offer targeted strategies for issues relating to children, families and communities.

The Communities We Serve

- **North and East of Sri Lanka:** We serve communities in Kilinochchi, Mullaitivu, and Batticaloa. Many of these families are victims of the 30-year civil war and are still recovering from the trauma of losing family members as a result of the war.
- **Central Province:** In Kandy, we work with street children who face various social and economic challenges. The majority of these families are homeless and suffering due to poverty. In Nuwara Eliya, we serve a community that works in tea estates and vegetable farms as laborers. The children from this community suffer due to their parents' alcoholism, poverty, unemployment, malnutrition, etc.
- **Western and Southern Sri Lanka:** We specifically serve in the districts of Colombo and Galle and these children suffer from the negative effects of urbanization.

The Impact of Donations

Your donation gives our children hope for the future by ensuring that their nutritional and health requirements are met and their primary and higher educational journeys are supported. It also enables protection from violence and abuse and the empowerment of girls & women. Children are the starting point in breaking the cycle of poverty and your donation will help make this a reality.

You can donate through the CAL charity page by scanning the QR code below.
